

AMSA Board of Officers 2012-2013 Application

1. Explain your interest in serving as this board position. If you are applying for multiple positions, briefly describe your interest in each.

I am interested in running for reelection as the Student Life Committee Chair because I enjoyed my time as the Student Life Committee Chair. I want to contribute my time and effort to making this club as best as it can be. I have been a member of AMSA since I was a freshman and I have been on the Student Life Committee as well. I like meeting new people and educating people about AMSA. As a pre-med student, AMSA has helped me greatly and I want to be able help other members as well.

2. Explain your strengths and how they will contribute to your performance as a board member. If you are applying for multiple positions, be specific about how your strengths support each position you are applying for.

My strengths include my persistence and not being able give up easily. I always arrive on time. I have experience in this position. I work well with other people. I am always able to do the tasks I am assigned and am able to complete them on time.

3. Describe your experience in previous leadership roles.

I am the current Student Life Committee Chair and I have also served on the Student Life Committee as well. I also hold an elected officer position in the Oakland Kicks Asthma club as the Supplies Coordinator. In that club, I prepare teaching materials to our teachers and plan out club meetings. I also volunteer every semester as a site leader for the Berkeley Project and at the University Health Services center.

4. Describe the goals you have for this position, and how you plan to achieve them. If applying for multiple positions, go into detail about your goals for each position.

One of the goals I always have is to make my committee presentations better. During our debriefings, I take into account constructive criticisms about my committee presentations and think of new ways to improve them. A few ideas that I will consider are inviting more guest speakers to come, whether they are from a different club on campus or from the medical field. I always strive to improve the Pre-Medical Survival Guide as well. My committee and I review old Pre-Med Survival Guides and we always try to find room for improvement.
