#### **Survey of the Principles of Biochemistry and Molecular Biology -- Molecular And Cell Biology (MCELLBI) 102 [4 units]**

**Course Format:** Three hours of lecture and one hour of discussion per week.

**Prerequisites:** Biology 1A, 1AL, and Chemistry 3B (or equivalent courses). Recommended: a course in physical chemistry.

**Credit option:** Students will receive 2 units of credit for 102 after taking 100 or C100A/Chemistry C130. Students will receive no credit for 102 after taking 110 and any of 100, 100B or C100A/Chemistry C130. No credit for 102 after taking Chemistry 135.

**Description:** A comprehensive survey of the fundamentals of biological chemistry, including the properties of intermediary metabolites, the structure and function of biological macromolecules, the logic of metabolic pathways (both degradative and biosynthetic) and the molecular basis of genetics and gene expression.

# Degree Audit Reporting System (DARS)

- System checks and makes a report of all the courses you've taken (including HS AP, IB, and Community College credits)
- Matches them with major and college requirements
- Highlights **VERY CLEARLY** what courses are still needed for graduation

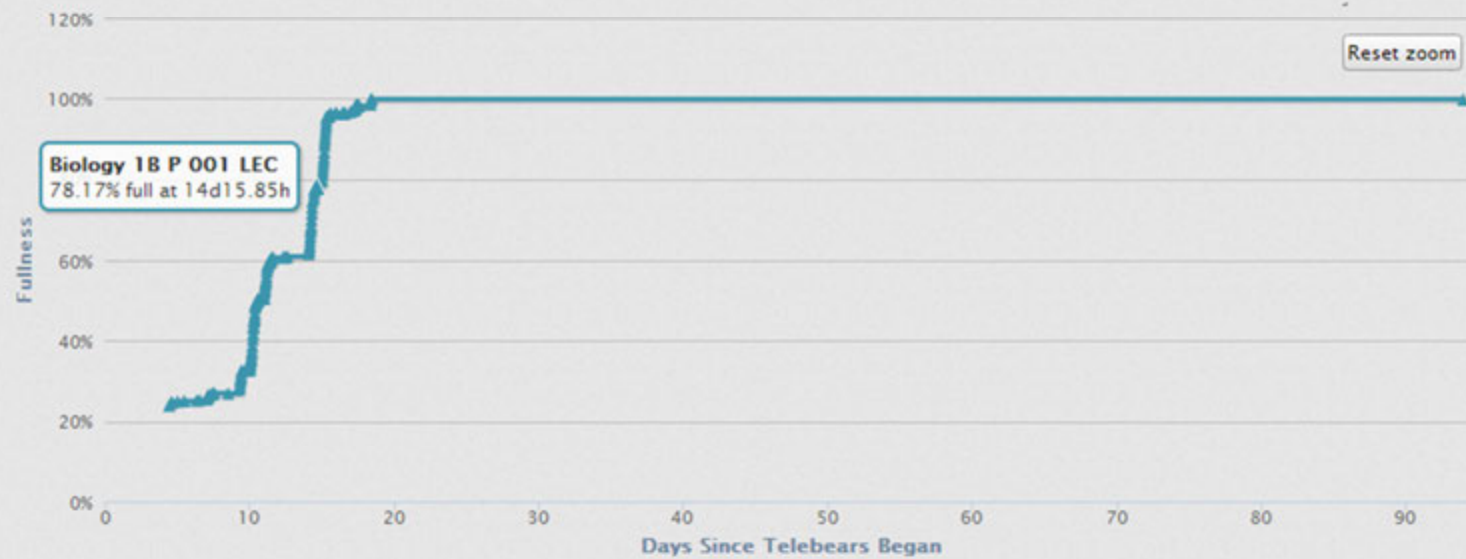

# Telebears Oracle ([telebearsoracle.com](http://telebearsoracle.com))

- Keeps track of the number of students enrolled on a daily basis
- Provides a graph to see how many students enrolled, also percentage full
- Good for popular Classes
- Historical data- you can see how many days after Tele-BEARS starts when the course fills up
- Can see waitlist percentages as well
