

Bryan Au-Yeung

Treasurer:

I am currently a sophomore here at UC Berkeley, and have been actively involved in AMSA since the beginning of my freshman year. I am running for the position of AMSA Treasurer and am confident in fulfilling the requirements working with the fundraising and community service chairs to aid AMSA's new humanitarian cause with the Flying Doctors. My previous experiences working with finance include both secondary school and continuing education with other volunteer organizations to raise money for charity events and medical causes, such as leading projects with the Volunteer Artists Foundation, Central Valley, and the Turlock Police Department. Although many of my experiences lie in the medical and science field, I have previously worked with different ASUC Agents among different organizations on campus, and am updated and familiarized with the way reimbursements and budgeting works through the ASUC. As AMSA Treasurer, I can work closely with the committees and exec. to create an updated committee budget, and can schedule time and availability for FiComm meetings and external grant proposals. I would like to secure greater funding as a Student Activity Group, and am positive that we can receive enough funds for our banquets and socials with greater coordination between volunteering and service activities and treasurer position. With all the volunteer activities we do, I personally believe that we can receive greater funds for our events from the ASUC. I am committed to promoting AMSA's cause, and am dedicated to strengthen AMSA's finances for banquets, socials, prizes, and mixer/general meeting material. I have worked on the Culture of Medicine Committee for two semesters as a freshman, and have been an intern to the Vice President of Membership this past fall semester, and am familiar with how AMSA runs many of its events, and how it gets its finances and donations for many of its events. In the past, I have helped plan the Winter social, and have assisted the VPM and AMSA in collecting donations for our AMSA raffles, and would like to be able to continue the work I have completed for AMSA and help strengthen its financial base.
